

# OPTISWITCH 5100

**Brand:** Krohne

## Short Description

Vibration level switch for process applications Point level detection of liquids Large choice of process fittings, housings and electronics Density: ?0.5 g/cm3 / 0.018 lb/in3 -50...+250°C / -58...+482°F; -1...64 barg / -14.5...928 psig

## Description

Large choice of process fittings and housing materials Optional adapter for high temperatures up to +250°C / +482°F Outputs: relay, transistor, 2-wire, NAMUR or contactless electronic switch Optional gas-tight lead-through for toxic gases Suited for hazardous and non-hazardous areas SIL2-compliant
