

OPTISWITCH 5200

Brand: Krohne

Short Description

Vibration level switch with rigid extension for process applications Point level detection of liquids Probe length up to 6000 mm / 236" Density: ρ 0.5 g/cm³ / 0.018 lb/in³ -50...+250°C / -58...+482°F; -1...64 barg / -14.5...925 psig

Description

Large choice of process fittings and housing materials Process connection option for high temperatures up to +250°C / +482°F Outputs: relay, transistor, 2-wire, NAMUR or contactless electronic switch Optional gas-tight lead-through for toxic gases Suited for hazardous and non-hazardous areas SIL2-compliant
