

# Swissfluid SBC Ball Check Valve

**Brand:** Swissfluid

## Short Description

NPS ½?–6? SBC Ball Check Valves are ideally suited as reliable non-return flow control for liquid process media.

## Description

Valves are available with PTFE solid balls and sight glass window plates made of Borosilicate acc. to DIN 7080 as per standard. The sturdy design bodies are made of cast steel 1.0619 (WCB), coating RAL 5005 signal-blue or stainless steel casting 1.4408 (CF8M), with resistant linings such as PFA or PFA-AS (conductive). Main Features • Heavy-duty, proven construction • Maintenance-free • Horizontal or vertical installation, flange connection acc. 1092-1, PN 16/40 oder ASME B16.5, CL 150 • No need of additional flange gaskets due to wide and chambered flange sealing surface • PTFE solid or hollow balls, guides made of PTFE-R • Large observation opening • FDA-conform
