

# INOR C530X

**Brand: INOR**

## Short Description

Universal HART-compatible 2-wire transmitter with wireless communication IPAQ C530 is a modern, HART® temperature transmitter developed to meet the highest standards of accuracy and reliability. A universal transmitter compatible with RTD, thermocouples, voltage and potentiometer sensors, offering high flexibility and reduces the number of installed product variants. It is fully compatible with HART® 7 and offers extended diagnostic information (for example device error, sensor and wiring conditions) making it reliable and highly precise. IPAQ C530 supports communication via NFC® (Near-field communication) and Bluetooth® which makes it possible to configure and monitor the transmitter remotely.

## Description

IPAQ C530 is a modern, HART® temperature transmitter developed to meet the highest standards of accuracy and reliability. A universal transmitter compatible with RTD, thermocouples, voltage and potentiometer sensors. It is fully compatible with HART® 7 and offers extended diagnostic information, for example device error, sensor and wiring conditions. IPAQ C530 supports communication via NFC (Near-field communication) and Bluetooth® which makes it possible to configure and monitor the transmitter remotely • High accuracy and long term stability • Accepts RTD, T/C, mV and ohm • Sensor error and system (sensor/transmitter) error correction • 50-point Customized Linearization and Callendar-Van Dusen • Rugged design tested for 10 g vibrations • Configuration via USB, without external power • Runtime counter - hour counter for elapsed operational time • Communicates with HART Communicator or PC via HART modem • Integrated in Emerson AMS and Siemens PDM systems
