

Digital EPIC D281/D291

Brand: Westlock Controls

Short Description

Digital EPIC D281/D291 NEC/ATEX/IEC – Explosionproof with Aluminum or Stainless Steel enclosure

Description

Non-contact Position Feedback Design: Offers greater reliability and longer operational life, enhancing plant availability and reducing maintenance. Ease of Commissioning: Simple push-button calibration and local digital display for quick setup. Versatile & Globally Certified: Approved for use in hazardous environments, with end-of-travel sensors and a range of enclosure material options. Advanced Configuration & Diagnostics: Utilizes the latest HART® communication protocol technology, with DD/FDT® DTM® for remote calibration and diagnostics. Precise Input Sensors: Ensures accurate feedback and optimal performance.
