

# Digital EPIC D460/D470

**Brand:** Westlock Controls

## Short Description

Digital EPIC D460/D470 NEC/CEC/ATEX/IEC – Explosionproof/Flameproof units with Aluminum or Stainless steel enclosures

## Description

**Microprocessor-Based Technology:** Enables digital communication via HART® protocol for seamless integration. **Remote and Local PST & ESD:** Initiates partial stroke test (PST) and emergency shutdown (ESD) remotely via HART® signal for enhanced safety in system applications. **Non-Contact Valve Position Measurement:** Magnetic pick-up eliminates mechanical drive arms or linkages, increasing reliability in high cycle applications or where vibration is present. **Highly Visible Position Indicator:** Ensures clear visibility of valve position for easy monitoring. **Low Power Falcon Solenoid Valve:** Available with integrated solenoid coils within the enclosure. **Pre-Wired Solenoid Valves:** Choice of factory pre-wired 3 and 4 way Falcon solenoid valves with various Cv ratings and coil voltages. **Durable Enclosures:** Model D460 features a low copper aluminum enclosure with powder coat finish, while Model D470 offers a heavy-duty stainless steel enclosure for maximum protection.
