

HM53

Brand: Hex Valve

Short Description

The HM53 Series is a three valve instrument manifold used to perform the block, equalizing and vent requirements of a differential pressure transmitter applications. Of importance in this design is the inclusion of a single mounting flange that allows the transmitter to bolt directly to the manifold which eliminates the piping of excess tubing and nipples. A mounting kit may also be specified to allow for installation to a pipe stand.

Description

VOC emission compliance Non-rotating tip stem Minimum emission flange removable bracket option Sizes: 1/2" x Instrument Flange Ratings: 6980 psi @ 100°F; 3525 psi @ 1000°F (Stainless Steel with graphite packing); 450°F limit for Teflon
