

# HG46

**Brand:** Hex Valve

## **Short Description**

A quick, inexpensive and compact means of installing gauges and static pressure instrumentation. Can be supplied with a bleed valve or needle valve threaded into one of the outlets to allow for combined block & bleed functions in a single, compact unit.

## **Description**

Cost savings by reducing number of components and leak points Compact design allows for less space to be used with other valves Non-rotating tip eliminates seat galling and provides a bubble-tight shut off OS&Y bonnet for added safety Packing below the threads prevents lubricant wash out and corrosion Sizes: 1/4?, 3//8?, 1/2?, 3/4?, 1? Ratings: 6980 psi @ 100°F; 3525 pig @ 1000°F (Stainless Steel) with graphite packing); 450°F limit for Teflon
