

Universal Style Steam Traps

Brand: Watson McDaniel

Short Description

The UC450 Series QUICK-CHANGE Universal Trap-Connector System with multiple choices for trap modules and connectors are used in steam systems where a simplified and economical maintenance program of steam traps is desired. These Universal Style quick replacement steam traps can be used on steam supply lines as well as for tracing and small process applications. They are commonly used in colleges & universities, hospitals, chemical plants, petrochemical refineries, paper mills and other industrial facilities.

Description

Quick-Change Steam Traps are recommended in any application – particularly those which are difficult to access, or require simple and frequent replacement of steam traps. Universal Connectors These Connectors remain permanently installed in the piping system. The convenient 2-bolt mounting system allows the Trap Module to be replaced quickly and easily using a socket or open-end wrench without having to unthread piping
