

# Motivator3

**Brand:** Chentronics

## Short Description

The Motivator3™ Hand-held High Energy Igniter Ignition with the Motivator is easy. No storage of volatile fuels for light-off, no exposure to open flames, and no concerns about imprecise light-offs. Our experts have packed more than 40 years of ignition experience and unsurpassed knowledge of ignition optimization into a tool that's as convenient and easy to use as an electric drill. The familiar look and feel ensures ease of operation and increases operator efficiency, while the innovative technology inside delivers unbeatable reliability and performance.
